

# Senior Consultant

## Infrastructure Asset Management Specialist

- Looking for your next challenge?
- 10+ years' experience in providing asset management advice to the public sector?
- Keen to be part of a dynamic, fast-paced, flexible organisation committed to making a difference?

### About us

Morrison Low is an Australasian management consulting firm. We have offices in Sydney, Wellington and Auckland. For over twenty years we have consulted to the public sector and achieved some exceptional results.

Our clients come to us for trusted advice on a wide range of issues, and we are seen as sector experts in providing strategic infrastructure, service delivery and procurement advice. We are looking for a senior level infrastructure and asset management consultant to work on a broad range of activities including strategic advice on infrastructure asset operation, asset strategy, management and project delivery with our team of senior consulting staff.

We are a values-driven business with a supportive team who thrive on delivering exceptional results across all facets of our clients' businesses.

Our people are flexible, hardworking and committed. We invest in our people. We take pride in the fact that we are a workplace that encourages growth, flexibility, and creativity, as well as a company culture that champions inclusion, diversity, and overall employee wellbeing.

You can find out more about us at [www.morrisonlow.com](http://www.morrisonlow.com).

### The opportunity

Our Infrastructure Asset Management Specialist will have experience in consulting to the state and/or local government sectors and have excellent relationship, communication and networking skills. You will also have a track record of problem solving and formulating high quality advice from your expertise with infrastructure planning, management and delivery. An important skill you will have is to be able to understand, analyse and advise on the asset and financial integration to successfully model the cost to renew and maintain clients' asset portfolios. The ability to develop asset management strategies and plans is a key part of the role as is being able to apply your past practical experience to solve asset related problems.

To be successful in this role, you will:

- be degree qualified in a relevant field
- have experience in diverse roles associated with infrastructure asset management in the public sector, state and/or local government
- have an extensive sector network or client base
- have a sound knowledge of asset management methodologies in both the public and private sectors
- be a natural team player with strong time management skills along with conceptual and analytical thinking

- have excellent contract and report writing skills along with experience in managing projects
- be comfortable self-managing your work, juggling competing demands and deadlines, prioritising work efficiently, with little direct supervision
- enjoy networking, meeting new people and building relationships
- want to grow your career.

Ultimately, you are a self-starter with outstanding sales and client relationship building skills coupled with a strong history of delivery.

The position is Sydney-based but will involve work on projects for clients in a range of locations and potential associated domestic travel. Our projects are usually team-based, both short and long term, and may involve both working in-house with our clients and from our offices.

Remuneration will be negotiated based on the successful candidate's experience, background and fit within our current business.

**Applications close: 30 October 2020 at 5pm**

If this sounds like the opportunity you have been waiting for, please apply by sending your resume and cover letter, explaining why you are the best candidate for this position, to the Practice Manager - [s.parkinson@morrisonlow.com](mailto:s.parkinson@morrisonlow.com).

Please note, all applicants must have the legal right to work in Australia.
